More information

FEATURES:

1. Specially formulated to provide the best care for tropical fish.
2. Perfect protection mechanisms for fish. Instantly eliminates ammonia (NH₃), chloramine, residual chlorine, heavy metals, and other toxic substances produced in the aquarium.
3. Contains a variety of beneficial organic ingredients such as almond leaf extract, which provides a significant antibacterial effect among other properties. It can emulate a natural chemical environment that allows fish to quickly adapt and develop with a natural and healthy appearance.
4. Balances pH value, effectively reducing fluctuations after partial water changes, thus generating greater chemical stability.
5. Creates a mechanism that strengthens the fish's body, forming a unique antibacterial film that protects their skin and gills. Similarly, this protective layer effectively prevents wound infection, accelerating healing.
6. Enriched with B-complex vitamins to strengthen the fish's immune system and promote metabolism. This allows for healthy growth and helps develop a well-proportioned body.
- 7.
