

## AZOO PLUS BETTA CUISINE

### DESCRIPTION:

- Premium slow-sinking pellets for Betta fish.
- AZOO Plus Betta Cuisine Contains a balanced formula that promotes growth and coloration through natural carotenoids.
- Manufactured with the most advanced and unique technology, it contains an immune system-strengthening formula. The diet of Betta fish is quite particular.

The Betta fish feed on the surface, slowly consuming a high-protein animal-based food with their tiny mouths. In fact, these fish feed in the wild on nutritious mosquito larvae and other small insects that land on the water's surface.

For this reason, these fish cannot eat just any balanced food but require one specifically tailored to them. The size, buoyancy, and palatability of Betta Pellets perfectly suit the feeding habits of Betta fish and other small labyrinth fish. AZOO Plus Betta Cuisine contains natural pigments that help enhance the typical coloration of these fish.

### INSTRUCTIONS:

AZOO Betta Cuisine can be fed 2 or 3 times a day, but only the amount that the fish can consume in 2 or 3 minutes.

Although the AZOO 9 in 1 formula reduces pollution in the aquarium, we recommend removing any uneaten food with a net to preserve water quality. This container has a quality seal.

Once opened, it is not necessary to refrigerate AZOO Betta Cuisine, but it should be kept tightly closed in a cool, dry place to preserve its nutritional properties. Avoid placing the container in damp or hot places such as on top of a light fixture or the aquarium lid. Check the expiration date. If it has passed, the nutritional properties decrease considerably, so we recommend discarding the food.

**AZOO Betta Cuisine IS NOT SUITABLE FOR HUMAN CONSUMPTION. ONLY FOR ORNAMENTAL AQUARIUM FISH.**

### EXPIRATION:

Check the expiration date located on the bottom of the container label. If it exceeds this date, the nutritional properties decrease considerably, so we recommend replacing the food.

**AZOO Plus Betta Cuisine IS NOT SUITABLE FOR HUMAN CONSUMPTION FISH OR CRUSTACEANS. ONLY FOR SHRIMP AND ORNAMENTAL AQUARIUM FISH.**

**PRECAUTIONS:**  
It is not suitable for human consumption. For use in aquariums with ornamental fish only. Keep out of reach of children and pets.
