

ULTRA BIOGUARD

DESCRIPTION:

Ultra Bioguard is a premium Biological Conditioner that restores the natural quality of water by reproducing a healthy environment in your aquarium. It is ideal for both freshwater and saltwater aquariums, aquariums with aquatic plants, reefs, and ponds. It contains a high concentration of natural aerobic and anaerobic probiotics, which can rapidly decompose nitrous acid, ammonia, nitrates, hydrogen sulfide, and other harmful substances. It utilizes patented technology that allows for the long-term preservation of various microbial strains to maintain their activity and optimal effectiveness.

It contains strains of Bacillus and Lactobacillus for the decomposition of ammonia, nitrites, and nitrates. Its biological action maintains the substrate of your aquarium and filter materials in good condition, and it can be added directly to these surfaces to enhance its synergistic effect. Unlike other biological conditioners, AZOO Ultra Bioguard does not emit foul odors. In fact, this product helps prevent potential odors in your aquarium. This conditioner is an excellent food source for juvenile shrimp and fish specimens.

INSTRUCTIONS:

Shake this product well before use. For new aquariums, add 30 ml per 100 liters of water. For new filter media or substrate, pour 10 ml per liter of filter material or substrate. For regular use, add 10 ml to 15 ml weekly per 100 liters of aquarium water, especially after a partial water change or routine maintenance. In cases of water quality emergencies, add 40 ml per 100 liters of aquarium water.

NOTES:

To ensure proper dispersion, add the additives in an area of the aquarium with sufficient flow. For water changes, you can add the additives to the water before pouring it into the aquarium. Avoid mixing different additives before adding them.

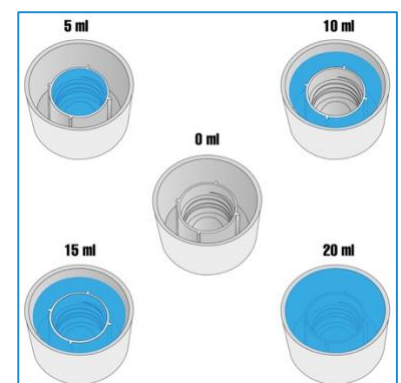

Some aquarium products may chemically react with others; try not to combine multiple products simultaneously to avoid precipitations or undesired reactions.

MAIN INGREDIENTS:

Bacillus sp., Aspergillus sp., Rhodospseudomonas sp., Alcaligenes sp.

The bottle cap will help you measure the dose accurately:

- The inner cavity holds 5ml. capacity.
- The volume between the inner and outer cavities contains 10ml.
- Both filled cavities contain 15ml in total.
- The cap filled completely contains 20ml.

ATTENTION:

- NOT SUITABLE FOR HUMAN CONSUMPTION.
- KEEP THE PRODUCT AWAY FROM CHILDREN AND PETS.
- SHAKE THE CONTAINER BEFORE USE.
- CLOSE THE CONTAINER TIGHTLY AFTER EACH USE.
- STORE THE CONTAINER IN A COOL AND DRY PLACE, AVOIDING DIRECT SUN EXPOSURE.
- FOR EXCLUSIVE USE IN AQUARIUMS WITH ORNAMENTAL FISH
- DO NOT INGEST, IN CASE OF EYE CONTACT, RINSE WITH PLENTY OF CLEAN WATER AND SEEK MEDICAL ATTENTION.
