

## VITAMINS

### DESCRIPTION:

AZOO PLUS Vitamins is a premium conditioner for freshwater fish that provides essential vitamins for healthy growth and  $\beta$ -Glucan, which notably strengthens the fish's immune system.

It contains important vitamins that are not always provided to our fish with dry food, such as the B complex (B<sub>1</sub>, B<sub>2</sub>, B<sub>6</sub>), vitamin A, D, E, among others.

Additionally, it contains amino acids and coenzymes that directly affect the formation of their tissues.

This allows fish to develop a natural and proportionate body shape, intense and natural coloration, and promotes successful reproduction, producing resilient eggs and excellent quality larvae.

### INSTRUCTIONS:

Shake the container before use. For best results, mix this additive with food in equal parts.

### NOTES:

To ensure proper dispersion, add the additives in an area of the aquarium with sufficient flow. For water changes, you can add the additives to the water before pouring it into the aquarium. Avoid mixing different additives before adding them.

Some aquarium products may chemically react with others; try not to combine multiple products simultaneously to avoid precipitations or undesired reactions.

### MAIN INGREDIENTS:

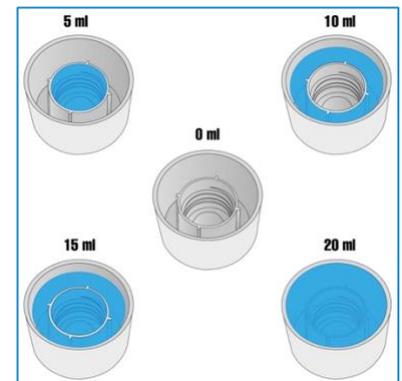

Multivitamins,  $\beta$ -Glucan, Vitamin B<sub>2</sub>, Sodium Citrate, (NaH<sub>2</sub>(C<sub>3</sub>H<sub>5</sub>O(COO)<sub>3</sub>) Potassium Sorbate (C<sub>6</sub>H<sub>7</sub>O<sub>2</sub>K), Distilled water.

The bottle cap will help you measure the dose accurately.

- The inner cavity holds 5ml. capacity.
- The volume between the inner and outer cavities contains 10ml.
- Both filled cavities contain 15ml in total.
- The cap filled completely contains 20ml.
