### INSTRUCTIONS:

This balanced food can be supplied 2 to 3 times a day, but only the amount that the fish can consume in 30 minutes. Although the AZOO PLUS Ultra-Fresh formula reduces pollution in the aquarium, we recommend removing any uneaten food with a net to preserve water quality. This container has a guarantee band. Once opened, it is not necessary to refrigerate, but it should remain tightly sealed in a cool, dry place to preserve its nutritional properties. Avoid placing the container in damp or hot areas such as above the light fixture or aquarium lid.

To guarantee both the quality and health safety of your fish, it is highly recommended to never touch the food with your hands. That is why the 60ml, 120ml and 330ml Ultra Fresh pellet containers include a dosing cap adaptable to the specific needs of your fish. These covers contain 12 pre-marked holes (7 of 3mm, 4 of 4m and one of 15 x 7mm). Choose the most convenient option for your aquarium, depending on the size of the food and the amount of each intake. The containers that contain sticks are 1,150 ml and include a appropriately sized spoon inside (2 ml and 1.5 ml capacity to dose your food precisely and safely.

### EXPIRATION:

Please check the expiration date located at the bottom of the container label. If this date is exceeded, the nutritional properties decrease significantly, so we recommend replacing the food.

**NOT SUITABLE FOR HUMAN CONSUMPTION. FOR ORNAMENTAL FISH ONLY.**

### WARNING:

The images we provide for these balanced foods are for informational purposes only and should be taken solely as reference, as the manufacturer reserves the right to modify the labels or format of their products without prior notice.
